

My Own Network, powered by AHRQ— (MONAHRQ®) is free, Windows-based software that helps organizations easily generate a health care reporting website for consumers and other audiences. MONAHRQ is a product of the Agency for Healthcare Research and Quality (AHRQ).

The reporting website generated by MONAHRQ can be made public, password protected, or used internally. You choose, because you download the software, input your data, generate the website, and host the website yourself.

Who Can Use MONAHRQ?

Any organization with inpatient discharge data, emergency department (ED) treat-and-release data, or pre-calculated quality measures can use MONAHRQ, including State agencies, community organizations such as Chartered Value Exchanges, hospital-related organizations, hospital systems, and others.

What Does MONAHRQ Do?

MONAHRQ uses hospital inpatient discharge data, ED treat-and-release data, and/or pre-calculated health care quality measures to quickly and easily create a health care reporting website.

Choose the information your organization wants to report:

- Quality of care in hospitals
- Inpatient and Emergency Department utilization in hospitals
- Preventable hospitalizations by county
- Hospital utilization rates for conditions and procedures by county
- Estimated cost savings from reducing potentially avoidable hospitalizations

MONAHRQ can report these measure sets:

- AHRQ Quality Indicators™
- Centers for Medicare & Medicaid (CMS) Hospital Compare measures
- Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) patient survey measures

How Does MONAHRQ Work?

Any organization can use MONAHRQ to generate a health care reporting website. Simply:

- Download the MONAHRQ software
- Load one or more data sets and/or measure results:
 - Inpatient discharge data
 - ED treat-and-release data
 - CMS Hospital Compare measure results
 - AHRQ Quality Indicator results
- Select website customization options
- Generate the website onto your own computers
- Host the website (optional)

MONAHRQ can potentially generate a fully functional website in less than a day, saving your organization time and money.

MONAHRQ incorporates several of AHRQ's most popular tools and products:

- Nationwide benchmarks calculated from AHRQ's Healthcare Costs and Utilization Project (HCUP) databases
- Hospital Cost-to-Charge Ratio files
- Clinical Classifications Software

Can I See a MONAHRQ Website?

Yes. To visit the latest MONAHRQ demo site or to find links to live public websites generated using MONAHRQ, visit www.MONAHRQ.ahrq.gov.

MONAHRQ Demo Website

Home Hospital Quality Utilization Avoidable Stays County Rates Resources

Hospital Quality

Ratings for the Public
Detailed Quality Statistics

Find and compare hospitals in your area. Some hospitals provide better quality care than others. Learn more.

Utilization

Inpatient Hospital Utilization
ED Utilization

Find and compare hospitals by the number of patients they treat for different medical conditions and procedures.

Avoidable Hospital Stays

Map and compare counties by rates of potentially avoidable hospital stays. Compare cost savings from reducing avoidable stays.

County Rates of Hospital Use

Map and compare counties by rates of inpatient medical conditions and procedures.

MONAHRQ Version: 4.1 Submit Feedback... Share this page... 2008 Data in Demo State

Sample website generated by MONAHRQ

Software Requirements

- Windows XP, Windows 7 (32- or 64-bit), Windows 8 (32- or 64-bit), Windows Server 2003, 2008 or 2012
- Microsoft® .NET version 4.0 (free)
- Microsoft SQL Server or SQL Server Express 2008 (free)

Disk Space Requirements

- Microsoft .NET 4.0: 850 MB for 32-bit and 2 GB for 64-bit systems
- Microsoft SQL Server Express: 2 GB for 32-bit and 64-bit systems
- MONAHRQ software: 350 MB
- SQL Server/SQL Server Express database: typically 100 MB but up to 4 GB
- MONAHRQ-generated web pages: typically 500 MB but up to 4 GB

Cost

- None. MONAHRQ is free software produced by AHRQ.

For More Information

Visit our website at www.MONAHRQ.ahrq.gov, where you can:

- Download the MONAHRQ software
- Visit a full demo site generated by MONAHRQ
- Find links to live public websites generated using MONAHRQ
- Download the MONAHRQ Host User Guide with step-by-step instructions for installing, using, and customizing MONAHRQ
- Learn more about MONAHRQ measures and methods
