Examples of Patient Experience Improvement:
Veterans Health Administration

Jennifer Purdy: Executive Director, VA Patient Experience Program

Jim Schaefer: Director of Surveys, Analytics & Performance Integration

Webcast Sponsored by AHRQ
March 3, 2021
What is Patient Experience (PX)?

The sum of all interactions, shaped by the organization’s culture, that influence Veterans’ and their families’ perceptions along their healthcare journey.
### SHEP – Over 1.8 Million Surveys Sent Annually

What is a Driver’s Analysis (DA)?

Quantitative technique used to evaluate the impact of various aspects of patient experience (i.e., “drivers”) on overall patient experience (i.e., “outcomes”).

The “outcome” in SHEP data is the **Overall Hospital Rating** measure (IP), the **Rating of Provider** measure (PCMH and SC), and **Overall Satisfaction with VA Community Care** (CC).

The “drivers” are the remaining HCAHPS measures and CAHPS measures, respectively.

DA helps identify intervention or leverage points for improving PX and informs clinical and operational action planning.
Communication with Nurses, Cleanliness of Hospital Environment, and Care Transition have direct impacts on Overall Hospital Rating. Communication about Medicine influences other composites, therefore making it a fruitful point of intervention to help increase Overall Hospital Rating scores.

* Q34 Doctor Informed: “During this hospital stay, how often did healthcare providers seem informed and up-to-date about the care you got from other providers at the hospital?” is not an official HCAHPS reported measure.
KEY TAKEAWAY:
If 10% of the veterans' ratings improved from bottom box to top box for Communication with Nurses, then we would predict an increase in Overall Hospital Rating (top box) of 4.6%.
Phase 1: (FY17) Build
- Define PX
- Design PX for VHA
- Gain Trust & Pilot Toolkits

Phase 2: (FY18) Deploy
- Leadership Engagement
- Employee Engagement
- Orchestrated Touchpoints

Phase 3: (FY19) Coach
- Assess Facility Needs & PX Maturity
- PX Culture
- Outcomes

Phase 4: (FY20) Build
- Standardize Across VHA
- Strengthen Skills
- Accountability Outcomes
Patient Experience Journey Maps

Human Centered Design (HCD) is a design and management framework for producing solutions to issues or problems that involve the human-perspective in all facets of the problem-solving process. During a discovery sprint, interviews across the country in various geographies, genders, races, life stages, military branches, and eras of service provide insights into bright spots and pain points, while baselining moments that matter in the journey receiving healthcare service delivery.

**WHAT IS A JOURNEY MAP?**

Journey maps visually display a common set of moments that Veterans experience before, during, and after receiving healthcare or interacting at the VA. They identify ideal situations and opportunities for improvement.

**Current Journey Maps:**
Outpatient, Women’s Outpatient, Hospitalization, and Discharge

**In-Development:** Care in the Community, Emergency Medicine, Telehealth, and more!
Implementation of PX Foundational Tools

A framework and tools to help you enhance the Veteran Patient Experience

WECARE Rounding
Standard Phone Greeting
Employee “I Choose VA” Name Badges
Own the Moment
Red Coat Ambassadors

The Own the Moment (OTM) Veterans Customer Experience workshop: Teaching customer experience standards, the VA WAY, through three guiding principles.

This workshop improves on good customer service by providing ease, effectiveness, and adds a third dimension of emotion.

The three-hour workshop is geared for all VA employees and volunteers and offers some continuing education credits. Implemented through a train-the-trainer model at each facility.

WHAT’S IN A VA PX TOOLKIT?

A toolkit is a set of information to assist VHA leaders understand the benefits of patient experience and offer strategies, tactics, and tips for implementing and the value of a targeted campaign, initiative, program, or solution at a facility. Toolkits are often accompanied by reference materials and promotional materials to assist in socializing the item for implementation.

SHEP HCAHPS Star Rating - Communication with Nurses

VA 2018 Compared to VA 2020

VA compared to HCAHPS* Hospitals

* based on July 2020 Release - N=3478 Hospitals with Star Ratings (includes VA data) Patient discharged from Oct 2018 to Sept 2019
SHEP HCAHPS Star Rating - Care Transition

VA 2018 Compared to VA 2020

VA Compared to HCAHPS* Hospitals

* based on July 2020 Release - N=3478 Hospitals with Star Ratings (includes VA data) Patient discharged from Oct 2018 to Sept 2019
SHEP HCAHPS Star Rating - Overall Rating of Hospital

VA 2018 Compared to VA 2020

VA Compared to HCAHPS* Hospitals

* based on July 2020 Release - N=3478 Hospitals with Star Ratings (includes VA data) Patient discharged from Oct 2018 to Sept 2019
Leadership and employee engagement is key

Foundational goal of the organization
Patient experience baked into the organization’s culture

Understand what is important to patients

Human centered design
Journey maps of key touchpoints (Moments that Matter)

Turning data into action

Key drivers help to narrow the focus
Understand patient/staff interactions, processes, and key touchpoints
Develop and deploy toolkits for quality/process improvement and standardization across the enterprise

Celebrate successes!!!
