

AHRQ Safety Program for Healthcare-Associated Infection Prevention

About the Program

- Reduce units' healthcare-associated infection (HAI) rates
- Free 9-month program with three rolling cohorts for CLABSI, CAUTI, and VAP/VAE beginning July 2025
- Learn strategies to improve device-related infection prevention procedures and patient safety culture

On any given day,
approximately
1 in 31 hospital
patients in the United
States has at least one
healthcare-associated
infection.¹

Benefits of Participating

- ☒ Receive CEU/CME credits
- ☒ Increase patient satisfaction and patient safety culture
- ☒ Improve your unit's infection prevention procedures for central line-associated bloodstream infections (CLABSI), catheter-associated urinary tract infections (CAUTI), and ventilator-associated pneumonia and ventilator-associated events (VAP/VAE)
- ☒ Enhance teamwork and communication around infection prevention
- ☒ Gain free expert consultation regarding infection prevention and patient safety culture
