Improving Diagnosis in Health Care: From Concept to Action

Andy Bindman, M.D.
Director
Agency for Healthcare Research and Quality

AHRQ Research Summit: Improving Diagnosis in Health Care
September 28, 2016 • 8:30 am—5:00 pm
AHRQ • 5600 Fishers Lane • Rockville, MD 20857
My Story

• Became Director May 2016
• Primary care physician
• Academic medicine background
  ► San Francisco General Hospital
  ► U.C. San Francisco Institute for Health Policy Studies
• Questions generated from practice; results used to change local practice
AHRQ’s Mission

To produce evidence to make health care safer, higher quality, more accessible, equitable, and affordable, and to work within HHS and with other partners to make sure that the evidence is understood and used.
Patient Safety and AHRQ: A Short History

• 1999: AHRQ designated Federal lead in patient safety

• 2000: National Summit on Medical Errors/Patient Safety

• 2001: First patient safety grants awarded
AHRQ invests in research and evidence to understand how to make health care safer and improve quality.

AHRQ creates materials to teach and train health care systems and professionals to catalyze improvements in care.

AHRQ generates measures and data used to track and improve performance and evaluate progress of the U.S. health system.
AHRQ’s Unique Role: Evidence and Implementation

Evidence → Tools for Implementation → Data and Measures

- Data and Measures: HCUP, MEPS, NQMC.
Improvements in Patient Safety 2010 - 2014

17% reduction in HACs

87,000 lives saved

2.1 million patient harms avoided

$19.8 billion in savings

AHRQ’s Patient Safety Budget

What is AHRQ’s patient safety budget? (FY’16)

1. <$100 million
2. $100 million to $200 million
3. $200 million to $300 million
4. $400 million to $500 million
5. >$500 million
$76 Million

For one of the major leading causes of death
• Published September 2015
• Part of the Quality Chasm series of reports
• Sponsored in part by AHRQ

Goals for Today

- Define diagnostic safety and diagnostic error
- Begin to understand how to measure it
- Explore potential solutions
  - Technology
  - Organizational factors
- Commit to a research agenda
Today’s Agenda

• Introduction
  ► Victor J. Dzau, M.D., National Academy of Medicine

• Overview
  ► Jeff Brady, M.D., AHRQ CQuIPS

• Physician and Patient Perspectives
  ► Gordon Schiff, M.D., Brigham & Women’s Center for Patient Safety Research and Practice

• Milestones
  ► Mark Graber, M.D., Society to Improve Diagnosis in Medicine

• Breakout Panels
  ➢ Use of Data and Measurement
  ➢ Health IT’s Role
  ➢ Organizational Factors

• Reconvene as a Group to Summarize Panel Discussions and Consider Next Steps
Let’s Work Together
