

Nursing Home Antimicrobial Stewardship Guide Implement, Monitor, & Sustain a Program

Toolkit 2. Monitor and Sustain Stewardship

Tool 3. Sample Monthly Summary Reports

The monthly summary report can provide an overview of prescription rates as well as information regarding a specific infection. The example below focuses on UTIs. The report can be customized according to the needs of each nursing home’s antimicrobial stewardship goals. For example, a nursing home may wish to omit repeat prescriptions for the same infection, or to track these prescriptions separately.

Summary Report of Infections and Antibiotic Use

(This example focuses on data for evaluating antibiotic use for suspected UTIs)

Month	Number of Resident Days	Number of Antibiotic Rx	Number of Antibiotic Rx Divided by Number of Resident Days	Number of Residents Receiving Antibiotics for UTI (incl. Repeats)	Number of UTI SBAR Forms Used	Number of UTIs That Met Diagnostic Criteria	Number of Negative Cultures
