

CHIPRA MEASURES BY CHIPRA CATEGORIES– INITIAL CORE SET AND PQMP COE MEASURE ASSIGNMENTS

CHIPRA CATEGORY	INITIAL CORE SET MEASURE ⁱ	PQMP COE ¹ MEASURE ASSIGNMENT
CROSS-CUTTING CATEGORIES		
Duration of enrollment	n/a	Duration of enrollment/continuity of insurance coverage (standalone measure and risk-adjustment measure) ⁱⁱ
Availability of services	Children and adolescents' access to primary care practitioners, by age and total	Availability of high-risk obstetric services ^{vii}
Family experiences of care	HEDIS CAHPS 4.0 instruments including supplements for children with chronic conditions and Medicaid plans	Availability of services (other than high-risk obstetric services) ^{viii}
		Inpatient family experiences of care (Pediatric H-CAHPS) ^{vi}
		Youth-reported survey (literacy, confidentiality, risk-taking behaviors) ^{iv}
Identification of children with special health care needs	n/a	Identification of children with special health care needs ⁱⁱⁱ
Continuum of care	n/a	Continuum of care ^v
Transitions/Care coordination	n/a	General medication reconciliation ^{vii 2}
		Quality of transitions from pediatric- to adult-focused care ^{vi}
		Transitions between care settings ⁱⁱⁱ
		Identification of social complexity for care coordination ⁱⁱⁱ
		Care coordination for children with special health care needs in the context of the medical home ⁱⁱⁱ
Hospital readmissions	n/a	Hospital readmissions ^{vi}
Person-reported outcomes	n/a	Person-reported outcomes, including functional assessment ⁱⁱ
Quality of care for children in the child welfare system	n/a (specifically to this population, although other measures can be used with this population)	Quality of care for children in the child welfare system, including psychotropic/antipsychotic use and care coordination for socially complex children ³ ; others to be identified ^{iv}
Quality to cost	n/a	Quality to cost measure ⁱⁱ
SPECIFIC CLINICAL CATEGORIES		
Prevention and health promotion		
• Prenatal	Frequency of ongoing prenatal care	Content of prenatal care ^v
	Timeliness of prenatal care—the percentage of deliveries that received a prenatal care visit as a member of the organization in the first trimester or within 42 days of enrollment in the organization	
	Percent of live births weighing less than 2,500 grams	
• Perinatal	Cesarean rate for nulliparous singleton vertex	n/a
• Immunizations	Childhood immunization status (by 2nd birthday)	n/a
	Immunizations for adolescents (by 13 th birthday)	
• Screening	Weight assessment for children/adolescents	BMI followup and treatment ^{viii}
	Use of standardized screening tools for potential delays in social and emotional development	Developmental screening and followup ^{v 4}
	Chlamydia screening for women ages 16-20	Adolescent depression screening, diagnosis, treatment, followup ^v
		Alcohol and substance use screening, diagnosis, treatment, followup ^{iv}

¹ For information on the COEs (Centers of Excellence), visit <http://www.ahrq.gov/chipra/pqmpfact.htm>.

² Also see mental health.

³ Also see Care coordination for socially complex children. NCINQ will build on the measure being developed by COE4CCN to make it applicable for children in the child welfare system.

⁴ In cases where a measure topic assigned to the PQMP COEs is similar to an initial core measure, the measure assignment is to improve on the initial core measure.

CHIPRA MEASURES BY CHIPRA CATEGORIES– INITIAL CORE SET AND PQMP COE MEASURE ASSIGNMENTS

• Well child care visits (WCVs)	WCVs in the first 15 months of life	Content of well-child care visits ^{iv}
	WCVs in the 3 rd , 4 th , 5 th , and 6 th years of life	
	WCVs for 12-21 years of age – with PCP or Ob-gyn	Content of well-adolescent care visits ^{iv}
• Dental	Total eligibles receiving preventive dental services (EPSDT measure Line 12B)	n/a
Management of acute conditions		
• Upper Respiratory – Appropriate Use of Antibiotics	Pharyngitis—appropriate testing related to antibiotic dispensing	n/a
	Otitis Media with Effusion—avoidance of inappropriate use of systemic antimicrobials – ages 2-12	Otitis Media with Effusion – avoidance of inappropriate use of systemic antimicrobials—ages 2-12 ^{ii,4}
• Dental	Total EPSDT eligibles who received dental treatment services (EPSDT CMS Form 416, Line 12C)	Dental treatment services ^{v,4}
• Emergency Department	Emergency Department Utilization—Average number of ED visits per member per reporting period.	n/a; except see above re asthma ED measure
• Inpatient Patient Safety ⁵	Pediatric catheter-associated blood stream infection (CLABSI) rates (PICU and NICU)	Global patient safety tool measure ^{vi}
		Septicemia ^{viii}
• Neonatal Intensive Care Unit (NICU)		Temperature on admission to NICU ^{vii}
		NICU outcomes ⁱⁱ
		NICU cost ⁱⁱ
• Pediatric Intensive Care Unit (PICU)		Pediatric intensive care unit (TBI) ^v
• Imaging (overuse)	n/a	Imaging for seizures and headache ^{viii}
Management of Chronic Conditions⁵		
• Respiratory	Annual number of asthma patients (=> 1 year old) with => one asthma related emergency department visit	Asthma ED visit ^{viii,4}
		Respiratory bundle (asthma and bronchitis) ^{viii}
• Attention Deficit Hyperactivity Disorder	Followup care for children prescribed ADHD medication (continuation and maintenance phase)	Followup care for children with ADHD (diagnosis, treatment, management) ^v
• Mental health ⁷	Followup after hospitalization for mental illness	Followup after mental hospitalization ^{vii}
		Medication reconciliation – mental health ^{vii}
		Mental health hospital admissions ⁱⁱⁱ
		Mental health hospital quality ⁱⁱⁱ
		Mental health ED admissions ⁱⁱⁱ
		Mental health ED quality ⁱⁱⁱ
• Diabetes	Annual hemoglobin A1C testing (all children and adolescents diagnosed with diabetes)	
• Sickle cell	n/a	Sickle cell treatment ^{viii}
• Access to disability support services	n/a	Access to disability support services ^{vi}

Legend:

CAHPS Consumer Assessment of Health Providers and Systems®
 CHIPRA Children’s Health Insurance Reauthorization Act
 COE Center(s) of Excellence (PQMP)

⁵ Can also apply to chronic conditions

⁶ Also see under screening mention of diagnosis, treatment and followup.

⁷ Also see screening under prevention and health promotion.

CHIPRA MEASURES BY CHIPRA CATEGORIES– INITIAL CORE SET AND PQMP COE MEASURE ASSIGNMENTS
