Figure 1. CAPQuaM Round 2 Conceptual Model

- Mental Health Visit
- Non-mental Health Visit

Medical Information
- Child-Centered Parent-friendly
- Data Availability
- Types of Medications (prescribed, OTC)

Coordination of Care
- Information Sharing Integrates settings
- IT Solutions (EMR, e-prescribing)
- Confidentiality (ethics)

Medication Reconciliation
- Timing (admission, discharge, transitions)

Coordination of Care

Mental Health Discharge

- Functional coordination between MH discharge and:
  - PCP/Medical Home
  - Developmental - Behavioral Pediatrician
  - Ongoing MH care (Outpatient/inpatient)
  - Other sites of care (e.g. School Health)
Functional coordination means:

- Continuity of care
- Ongoing and coordinated MH & PH care
- Sufficient communication
  - re MH discharge
  - re ongoing MH needs
  - re ongoing physical needs
  - re pharmacotherapy
- Supports shared decision making
