It is the policy of Duke University Health System Clinical Education and Professional Development to ensure balance, independence, objectivity and scientific rigor in all of its educational activities. The following decisions were made free of the control of a commercial interest: needs identification; determination of educational objectives; selection and presentation of content; selection of all persons and organizations in a position to control content of the education activity; selection of educational methods; and evaluation of the education activity. Those in a position to control the content of this activity (faculty, planning committee, reviewers) have disclosed any relevant financial relationships with commercial interest to the provider. Any personal conflicts of interest have been resolved prior to the education activity being delivered to learners.

In order to receive credit, participants must attend both days of the course and complete the post-training evaluation.
