Bibliography for the AHRQ Research Centers for Excellence in Clinical Preventive Services

Each of the AHRQ Research Centers for Excellence in Clinical Preventive Services published articles from their research projects and developed other materials from the activities of their Center core which help to advance the field of their area of focus (health equity, reducing patient harms, and health care implementation). Publications and other materials developed by each Center as of September 2014 are listed below. Additional manuscripts and materials developed as a result of this work will continue to be published and posted online.

The Center for Advancing Equity in Clinical Preventive Services at Northwestern University, Chicago

Center Focus: Reduce Disparities

Research Project: Improving Rates of Repeat Colorectal Cancer Screening Among a Predominately Low-income Latino Population (PI: David Baker, M.D., M.P.H.)

Research Project: Understanding and Addressing High Rates of Refusal of Pneumococcal Vaccination among African-Americans (PI: Kenzie Cameron, PhD, MPH)

Center Core

Research Center for Excellence in Clinical Preventive Services, University of North Carolina

Center Focus: Appropriate Use of Clinical Preventive Services

Center Core

Harris R. Screening is only part of the answer to breast cancer. Ann Intern Med. 2014 Jun 17;160(12):861-863. PMID: 24711098

The Center for Research in Implementation Science and Prevention, University of Colorado

Center Focus: Health Care Implementation

Research Project: Comparative Effectiveness Trial of Two Reminder/recall Methods to Increase Immunization Rates in Young Children (PI: Allison Kempe, M.D., M.P.H.)

Research Project: Family-focused Childhood Obesity Prevention Intervention Using Community Health Workers (PI: Arthur Davidson, M.D., M.S.P.H.)
