Appendix K. Infographic Poster on CAUTI Prevention

The poster on the following page is intended to be printed with dimensions of 28 by 36 inches. This can be done by sending the PDF out to a printer for large-format printing, or by printing it in tiled sections. Print the poster in tiled pieces by selecting “Poster” in the “Page Sizing & Handling” section of the Adobe Acrobat Reader print dialog box.
Catheter-associated urinary tract infections (CAUTI) are among the most common HAIs in the United States. At any given time, HAIs affect 1 out of every 20 hospital patients.

By taking these steps, your hospital can eliminate CAUTI and make care safer for patients.

AHRQ Safety Program for Reducing CAUTI in Hospitals
