

Signs and Symptoms of Illness

Call the doctor if your baby:

- Has a fever more than 100 degrees Fahrenheit.
- Has diarrhea for more than one day.
- Is throwing up forcefully.
- Is not eating well.
- Has not had at least six to eight wet diapers per day.
- Has very yellow eye color or skin color.
- Is hard to wake up.
- Has fast or difficult breathing.
- Makes jerking movements.
- Is not looking well or acting well.
